

## Leader Specific Training

*Leader Specific Training* is phase two of a new national training plan initiated by BSA. It follows the logical progression from *New Leaders Essentials* which is a prerequisite for this course.

*Scoutmaster and Assistant Scoutmaster Training* is tailored for adults who have recently accepted the responsibility of delivering the Scouting program to youth by serving as Scoutmasters and assistant Scoutmasters. For many, this will be an introduction to the rewards and challenges of troop leadership. Others may have held leadership positions in Cub Scouting, Venturing, or on troop, district, or council committees, and will come to this training well versed in what Scouting has to offer.

The sessions in this training course are thorough and comprehensive. They're also fun. Participants will be enthused to discover the essentials of their leadership positions and to realize that they can easily become successful Scout leaders. Discussions, group activities, and video clips will keep the sessions lively and create a fellowship of learning.
